1. NATURE OF OPERATIONS

First Quantum Minerals Ltd. ("First Quantum" or "the Company") is engaged in the production of copper, nickel, gold and silver, and related activities including exploration and development. The Company has operating mines located in Zambia, Panamá, Turkey, Spain, Australia and Mauritania, and a development project in Zambia. The Company is progressing the Taca Taca copper-gold-molybdenum project in Argentina and is exploring the Haquira copper deposit in Peru.

The Company's shares are publicly listed for trading on the Toronto Stock Exchange.

The Company is registered and domiciled in Canada, and its registered office is Suite 2600, Three Bentall Centre, P.O. Box 49314, 595 Burrard Street, Vancouver, BC, Canada, V7X 1L3.

2. BASIS OF PRESENTATION

These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34 Interim Financial Reporting ("IAS 34"). Accordingly, certain disclosures included in the annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRSs") as issued by the International Accounting Standards Board have been condensed or omitted. The accounting policies applied in these condensed interim consolidated financial statements are consistent with those applied in the preparation of, and disclosed in, the consolidated annual financial statements for the year ended December 31, 2022. Amendments to IAS 12, effective January 1, 2023, have had no material impact on the financial statements.

These consolidated interim financial statements have been prepared on a going concern basis. In making the assessment that the Company is a going concern, management has taken into account all available information about the future, which is at least, but is not limited to, twelve months from June 30, 2023. Expected credit losses on financial assets remain immaterial at June 30, 2023.

At June 30, 2023, the Company had $1,300 million committed undrawn senior debt facilities and $878 million of net unrestricted cash (inclusive of overdrafts), as well as future cash flows in order to meet all current obligations as they become due. The Company was in compliance with all existing financial covenants as at June 30, 2023.

Adjustment for expected phasing for non-current portion	**54**
At June 30, 2023	**717**

During the six months ended June 30, 2023, the Company was granted offsets of $114 million and cash refunds of $2 million with respect to VAT receivable balances. During the six months ended June 30, 2022, offsets of $38 million were granted.

In 2022, the Company reached agreement in respect of the outstanding Zambian value-added tax receivable sum including an approach for repayment based on offsets against future corporate income taxes and mineral royalties. The adjustment for expected phasing for the non-current portion represents the application of an appropriate discount rate to the expected recovery of VAT. This adjustment for expected phasing, a credit of $54 million, has been recognized in net earnings in the six months ended June 30, 2023 (six months ended June 30, 2022: expense of $128 million). As at June 30, 2023, amounts totalling $170 million are presented as current.

On April 4, 2023 the Company's subsidiary, KMP and ZCCM Investments Holdings Plc "ZCCM-IH" completed the agreement to convert ZCCM-IH's dividend rights to a 3.1% royalty interest in KMP. The transaction also provides for 20% of the KMP VAT refunds as at June 30, 2022 to be paid to ZCCM-IH, as and when these are received by KMP from the Zambia Revenue Authority ("ZRA)". As at June 30, 2023, a VAT payable to ZCCM-IH of $51 million, net of adjustment for expected phasing of payments, has been recognized. See note 20.

18. SEGMENTED INFORMATION

The Company's reportable operating segments are Cobre Panamá, Kansanshi, Trident, and Ravensthorpe. Each of the reportable segments report information separately to the CEO, the chief operating decision maker.

The Corporate & other segment includes the Company's remaining operations, Guelb Moghrein, Las Cruces, Çayeli, Pyhäsalmi, the metal marketing division which purchases and sells third party material, and the exploration projects. The Corporate & other segment is responsible for the evaluation and acquisition of new mineral properties, regulatory reporting, treasury and finance and corporate administration.

The Company's operations are subject to seasonal aspects, in particular the rainy season in Zambia. The rainy season in Zambia generally starts in November and continues through April, with the heaviest rainfall normally experienced in the months of January, February and March. As a result of the rainy season, mine pit access and the ability to mine ore is lower in the first quarter of the year than other quarters and the cost of mining is higher.

[1] Commodity products are sold under pricing arrangements where final prices are set at a specified future date based on market commodity prices. Changes between the prices recorded upon recognition of revenue and the final price due to fluctuations in commodity market prices give rise to an embedded derivative in the accounts receivable related to the provisionally priced sales contracts.
[2] Other derivative instruments related to provisionally priced sales contracts are classified as fair value through profit or loss and recorded at fair value, with changes in fair value recognized as a component of cost of sales.
[3] Investments held by the Company are held at fair value through other comprehensive income.
[4] The fair value of financial assets and liabilities measured at amortized cost is comparable to the carrying value due to the short term to maturities or due to the rates of interest approximating market rates.

The following provides the classification of financial instruments by category at December 31, 2022:

Fair values

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1	Quoted prices (unadjusted) in active markets for identical assets or liabilities.
Level 2	Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
Level 3	Inputs for the asset or liability that are not based on observable market data.

The following table sets forth the Company's assets and liabilities measured at fair value on the balance sheet at June 30, 2023:

	Level 1	**Level 2**	**Level 3**	**Total fair value**
Financial assets				
Derivative instruments – LME contracts [1]	**50**	**–**	**–**	**50**
Derivative instruments – OTC contracts [2]	**–**	**4**	**–**	**4**

Financial liabilities				
Derivative instruments – LME contracts [1]	**20**	**—**	**—**	**20**
Derivative instruments – OTC contracts [2]	**—**	**2**	**—**	**2**

[1] Futures for copper, nickel, gold and zinc were purchased on the London Metal Exchange ("LME") and London Bullion Market and have direct quoted prices, therefore these contracts are classified within Level 1 of the fair value hierarchy.

[2] The Company's derivative instruments are valued by the Company's brokers using pricing models based on active market prices. All forward swap contracts held by the Company are OTC and therefore the valuation models require the use of assumptions concerning the amount and timing of estimated future cash flows and discount rates using inputs which can generally be verified and do not involve significant management judgment. Such instruments are classified within Level 2 of the fair value hierarchy. Derivative assets are included within other assets on the balance sheet and derivative liabilities are included within provisions and other liabilities on the balance sheet.

[3] The Company's investments in marketable equity securities are classified within Level 1 and Level 3 of the fair value hierarchy. The investments classified within Level 1 of the fair value hierarchy are valued using quoted market prices in active markets. The fair value of the marketable equity securities is calculated as the quoted market price of the marketable security multiplied by the quantity of shares held by the Company. The investments in equity securities in non-public companies are classified within Level 3 of the fair value hierarchy as the valuation is based on unobservable inputs, supported by little or no market activity.

The following table sets forth the Company's assets and liabilities measured at fair value on the balance sheet at December 31, 2022, in the fair value hierarchy:

	Level 1	Level 2	Level 3	Total fair value
Financial assets

[3] The Company's investments in marketable equity securities are classified within Level 1 and Level 3 of the fair value hierarchy. The investments classified within Level 1 of the fair value hierarchy are valued using quoted market prices in active markets. The fair value of the marketable equity securities is calculated as the quoted market price of the marketable security multiplied by the quantity of shares held by the Company. The investments in equity securities in non-public companies are classified within Level 3 of the fair value hierarchy as the valuation is based on unobservable inputs, supported by little or no market activity.

20. COMMITMENTS AND CONTINGENCIES

Capital commitments

The Company has committed to $423 million (December 31, 2022: $426 million) in capital expenditures, principally related to the S3 project at Kansanshi.

Other commitments & contingencies

Due to the size, complexity and nature of the Company's operations, various legal and tax matters are outstanding from time to time. The Company is routinely subject to audit by tax authorities in the countries in which it operates and has received a number of tax assessments in various locations, including Zambia, which are currently at various stages of progress with the relevant authorities. The outcome of these audits and assessments are uncertain however the Company is confident of its position on the various matters under review.

Cobre Panamá

Refreshed Concession Agreement

On March 8, 2023, the Company and the Government of Panamá "GOP" reached an agreement in respect of the terms and conditions for a refreshed Concession Contract, which is subject to approval by law. The Refreshed Concession Contract provides for an initial 20-year term with a 20-year extension option and possible additional extension for life of mine. The Refreshed Concession Contract has been signed by the GOP and the Company on June 26, 2023, having completed the public consultation process, and is currently under the ordinary course of business review by the National Comptroller prior to its countersignature. Once counter signed by the Comptroller, it is expected to be presented before the National Assembly of Panamá during the current legislative term that commenced on July 1, 2023. The principal economic terms of the Refreshed Concession Contract are set out in the Guidance section under the heading of Taxation.

Introduction

In February 1996, the Republic of Panamá and MPSA, now a subsidiary of the Company, entered into a mining concession contract in respect of the Cobre Panamá project ("Concession Contract").

On February 26, 1997, the Concession Contract was approved by the National Assembly of Panamá through law 9 of 1997 ("Law 9"), approving the terms of the Concession Contract. Law 9 was published in the Official Gazette on February 28, 1997. Approval through Law 9 was required given the special benefits granted in the concession contract for the development of the Cobre Panamá project. On December 30, 2016, the GOP signed and issued Resolution No. 128 by which it extended the Concession Contract held by MPSA for a second 20-year term commencing March 1, 2017 up to February 28, 2037.

The current GOP, inaugurated on July 1, 2019, established a multidisciplinary commission including the Minister of Commerce and Industries (mining regulator), Minister of Environment, and Minister of Employment to discuss the Law 9 matter and seek resolution arising from a Supreme Court Ruling which declared Law 9 to be unconstitutional. In July 2021, the GOP announced the appointment of a high-level commission of senior government ministers and officials, chaired by the Minister of Commerce, to discuss the Company's concession contract. In September 2021, the Ministry of Commerce and Industries publicly announced the culmination of the high-level formal discussions on two topics being environmental and labour matters.

During January 2022, the GOP tabled a new proposal, namely that the GOP should receive $375 million in benefits per year from Cobre Panamá and that the existing revenue royalty would be replaced by a gross profit royalty. The Company indicated to the GOP that it was prepared to accept GOP's proposed terms, subject to receiving downside protections. On March 8, 2023, MPSA and the Republic of Panamá announced they had finalized negotiations on the terms and conditions of a refreshed concession contract that will govern the relationship of the parties once it enters into effect, for which purposes the approval from the National Assembly of Panamá is required ("Refreshed Concession Contract"). The Refreshed Concession Contract is currently under the ordinary course of business review by the National Comptroller for its countersignature, and is expected to be presented by the Ministry of Commerce and Industries to the National Assembly of Panamá in the current legislative term that commenced on July 1, 2023.

Panamá Constitutional Proceedings

In September 2018, the Company became aware of a ruling of the Supreme Court of Panamá ("Supreme Court") in relation to the constitutionality of Law 9. The Company understands that the ruling of the Supreme Court with respect to the constitutionality of Law 9 relates to the enactment of Law 9 and does not affect the legality of the Concession Contract itself, which remains in effect, and allows continuation of the development and operation of the Cobre Panamá project by MPSA.

In respect of the Supreme Court ruling on Law 9, the Company notes the following:

- The Supreme Court decision was in respect of legal filings made since 2009.
- In reviewing the process of approval of Law 9 of 1997, the Supreme Court found that the National Assembly had failed to consider Cabinet Decree 267 of 1969 in said approval process.
- The applicable Cabinet Decree of 1969, which was repealed in 1997 by Law 9, required the Ministry of Commerce and Industries ("MICI") to issue a request for proposals before awarding mining concessions in the Petaquilla area.
- Two Attorney Generals (Procuradores Generales de la Nación, in Spanish) provided formal opinions favourable to the constitutionality of Law 9 as required in this type of proceedings by Panamanian law. The Supreme Court ruling did not make a declaration as to the annulment of the MPSA Concession Contract.

In 2018, MPSA submitted filings to the Supreme Court for ruling, staying the legal effects of the ruling in relation to the constitutionality of Law 9. On September 26, 2018, the Government of Panamá issued a news release affirming support for Cobre Panamá. The release confirmed that MICI considers that the MPSA Mining Concession contract, and its extension, remains in effect in all its parts (the MICI release is available at www.twitter.com/MICIPMA/status/1044915730209222657). As a matter of fact, MICI, among other actions taken in relation to the contract´s continued validity, submitted its own filings to the Supreme Court, prior to the ruling in relation to the constitutionality of Law 9 taking effect. In July 2021, the Supreme Court responded to the requests for clarifications submitted by MPSA and MICI, ruling them inadmissible on procedural grounds, upholding its ruling that Law 9 is unconstitutional. The unconstitutionality ruling came into legal effect upon its publication in the Official Gazette on December 22, 2021.

Later, the current administration of the GOP made public a different position, in the sense that in their view, the declaration of unconstitutionality of Law 9 by the Supreme Court of Justice does affect the Concession Contract´s validity.

The Company, however, understands that the ruling's effects are non-retrospective, pursuant to article 2573 of the Judicial Code, which means that the enactment of the Concession Contract in 1997 and its extension (from 2017 until the year 2037) remain unaffected together with the acquired rights.

Nullity Actions by Third Parties

Two claims have been lodged with Supreme Court contesting the approval, granted in 2016 by the GOP, for the extension of MPSA's mining Concession Contract by means of Resolution No. 128 of 2016 issued by MICI. These claims center on: the nature of rights accorded by the mining concession contract to Petaquilla Gold S.A.; the validity of certain assignments between MPSA and Petaquilla Gold, S.A. relating to the concession area and concession rights; and the process followed by the MICI in approving the extension of MPSA's mining concession contract.

The Company refutes the claims made in the aforementioned nullity motions and has been advised by external counsel that the extension process followed by the MICI in 2016 was correct. The Company has requested that both nullity motions be joined and, the decision is pending. In both proceedings, the State's Attorney of Panamá has provided a favourable formal opinion as to the legality of the resolution which approved the extension of MPSA's Concession Contract, as required for such proceedings under Panamanian law. However, on January 11, 2023, the Administration's Attorney filed in both proceedings of the nullity actions, motions requesting that the Supreme Court, based on the ruling that declared Law 9 to be unconstitutional, declares "constitutional res judicata" in each proceeding, to avoid contradictory results in the different proceedings, resulting in that the Extension Resolution is deemed without legal effect. MPSA is challenging these motions which remain pending resolution.

If the nullity actions contesting the approval of the extension of the Concession Contract are upheld by the Supreme Court the outcome may include a challenge to the legality of continuing to exploit the mine under the Concession Contract.

Administrative Proceedings

In November 2022, the State began to claim that the Concession Contract was invalid based on the Supreme Court ruling, and mandated negotiations for a refreshed Concession Contract.

Also in November, 2022, the State set a unilateral and arbitrary deadline of December 14, 2022 to conclude negotiations on a potential refreshed Concession Contract. As the parties were unable to attain consensus on all key economic and legal terms which would govern their relationship into the future, on December 15, 2022, the Cabinet Council (comprised of the President of the Republic of Panamá, together with all Ministers) issued Resolution No. 144 instructing the Ministry of Commerce and Industries, the Ministry of Employment, and the Ministry of the Environment to take certain actions in relation to the ruling that declared Law 9 unconstitutional, including an instruction to the Ministry of Commerce and Industries to order MPSA to prepare and execute a plan to put the mine under "care and maintenance". MPSA filed legal motions to stay the effects of Resolution No. 144, which remain pending resolution. However, complying with said instruction in Resolution No. 144, on December 19, 2022, the National Directorate of Mineral Resources of the Ministry of Commerce and Industries issued Resolution No. 2022-234, by which it ordered MPSA to prepare and submit to the Ministry of Commerce and Industries within 10 business days a plan to put the mine in "care and maintenance". MPSA filed recourses, appeals, and other motions against these resolutions, staying their legal effect; and, as a result, the term provided for the filing of the care and maintenance plan is currently suspended. Furthermore, and notwithstanding the aforementioned and other legal motions, on March 15, 2023, MPSA filed a request that the administrative proceedings resulting from Resolution No. 144 and Resolution No. 2022-234, respectively, be acknowledged and declared to be moot, due to the fact that, as it was made public by a joint press release, on March, 8, 2023, MPSA and the GOP had reached agreement on the terms and conditions for a Refreshed Concession Contract (which, as mentioned above, is subject to approval by law). The foregoing requests are pending resolution.

The GOP has not pursued any further actions in this administrative proceeding and has confirmed to the Company that it is focused on the processes relating to the execution (which has now taken place) of the refreshed concession contract and its subsequent approval by the National Assembly. Once the new contract is approved by the National Assembly, it is expected that the aforementioned administrative proceeding is declared moot and definitively archived.

On January 26, 2023, the Panamá Maritime Authority ("AMP") issued a resolution (Resolution No. 007-2023) that ordered the suspension of concentrate loading operations at the Cobre Panamá port, Punta Rincón, until evidence was provided, to the satisfaction of AMP, that the process of certification of the calibration of the scales by an accredited company had been initiated. As a consequence of AMP´s measures, on February 23, 2023, it became necessary for MPSA to shut down the Cobre Panamá mine, due to limited storage capacity on site. On March 8, 2023, AMP issued a new resolution, which revoked the prior resolution ordering the suspension of concentrate loading operations. Mining and port operations resumed shortly after this, with mining operations ramping up to full production levels within two days and five shipments of copper sailing during the rest of March.

Notwithstanding the foregoing, the Company continued to engage in good faith discussions with the GOP and, on March 8, 2023, the Company and the GOP issued a press release announcing that they had reached agreement on the terms and conditions for a Refreshed Concession Contract, which, as mentioned above, is subject to approval by law. The Refreshed Concession Contract is expected to be presented before the National Assembly of Panamá in the legislative term that commences on July 1, 2023, after having gone through a public consultation process and receipt of all required prior governmental approvals.

Arbitration Proceedings

Steps towards two arbitration proceedings have been taken by the Company. One under Canada-Panamá Free Trade Agreement (FTA), and another one as per the dispute resolution and arbitration clause of the Concession Contract.

1. On December 23, 2022, First Quantum submitted a letter to the GOP initiating the consultation period required under the Canada-Panamá Free Trade Agreement (FTA). Under the terms of the FTA, First Quantum and the GOP are required to engage in consultations to resolve the dispute amicably. First Quantum is entitled to seek any and all relief appropriate in arbitration, including but not limited to damages and reparation for Panamá's breaches of the Canada-Panamá FTA by curtailing Minera's ability to mine under its Concession Contract.

2. Also on December 23, 2022, First Quantum submitted a Notice of Arbitration pursuant to the Rules of Procedure of the Inter-American Commercial Arbitration Commission (the "IACAC Rules") and Clause 23 of the Concession Contract. The arbitration enforces the parties' agreement to arbitrate its disputes arising out of and in connection

with the Concession Contract. The parties have each appointed their arbitrator and the process towards the appointment of the Arbitral Tribunal chairman had begun. In light of having reached agreement on the terms and conditions of the Refreshed Concession Agreement, the parties executed a standstill agreement on March 10, 2023 to toll any applicable time periods and deadlines relating to the arbitration proceeding to allow time for the Refreshed Concession Contract to undergo public consultation, receive government approvals and approval from Panamá´s National Assembly.

Kansanshi Development Agreement

In May 2020, KMP filed a Request for Arbitration against the GRZ with the International Centre for Settlement of International Disputes. This arbitration is confidential. KMP's claims concern breaches of certain contractual provisions of a development agreement between GRZ and KMP and international law. Pursuant to the wider reset arrangements concluded between the Company and GRZ in May 2022, the parties have agreed in principle to a settlement in respect of this arbitration and are working towards formal closure of the proceedings. In light of the continuing settlement negotiations between the parties, the Tribunal has released the hearing dates for this matter which had been scheduled for July 2023.

Kansanshi – conversion of ZCCM dividend rights to royalty rights

On April 4, 2023 the Company's subsidiary, Kansanshi Mining Plc and ZCCM-IH completed the agreement to convert ZCCM-IH's dividend rights to a 3.1% royalty interest in Kansanshi Mining Plc. The transaction also provides for 20% of the KMP VAT refunds as at June 30, 2022 to be paid to ZCCM-IH, as and when these are received by KMP from the ZRA.

Accordingly, the non-controlling interest in the consolidated financial statements has been derecognized, with no gain or loss arising. An adjustment has been made against the book value of Kansanshi Mining Plc's mineral property within Property, Plant and Equipment (note 5) and ZCCM IH's right to VAT refunds has been recognized as a liability (note 9).
