- Financial close could be achieved within 12 months
- > Targeting up to \$2.5B

RESULTS – OPERATIONS¹ – Q1 2016

- Strong operations
- 4th successive quarter of higher copper production & lower unit production cost
- All-in sustaining cost well below a year ago
 - Copper by 39% to US\$1.36/lb
 - Nickel by 11% to US\$4.93/lb
- Highest quarterly copper production & sales

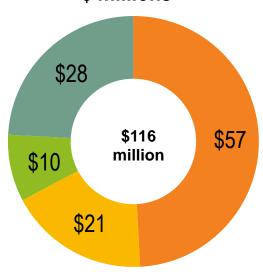

¹ Continuing operations which exclude Kevitsa

RESULTS - COST SAVINGS1 - Q1 2016 VS. Q1 2015

- Net acid costs \$28M lower driven by Kansanshi smelter production of sulphuric acid
- Lower employee, contractor and maintenance costs
- Lower consumable, fuel, power and freight costs across the group
- General and administration and exploration costs \$10M lower excluding the impact of FX
- In addition, royalty costs \$38M lower due to rate change

- Employee/Contractors/Maintenance costs
- Fuel/Power/Freight/Consumables
- G&A + Exploration
- Smelter savings

¹ Adjusted to remove the impact of FX

PLATFORM OF HIGHER CASH GENERATING OPERATIONS

- Kansanshi smelter exceptional start-up and continuing operation
- Kansanshi mine benefitting from having a dedicated smelter
- Las Cruces steady strong operation
- Guelb Moghrein significantly stronger
- Ravensthorpe one of the lowest cost nickel producers
- Çayeli well-managed mature operation
- Pyhäsalmi recognized as one of the most efficient underground mines in the world

SENTINEL RAMPING UP

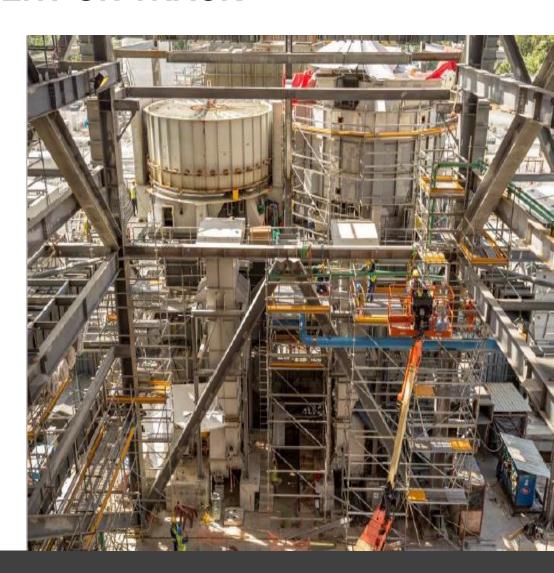

- Progressively higher production every quarter since Q1 2015
- Expected to be able to run at or near design throughput capacity with the current 120MW allocation
- Awaiting electrification of 2nd power line expected in Q2 2016

COBRE PANAMA DEVELOPMENT ON TRACK

- Most challenging aspect of the project is well under control
- Priority given to the power station and associated infrastructure
- Revenues from power sales expected in 2nd half 2017
- Expenditures being managed to suit market conditions
- Capex lowered to \$5.48B
